

Damper actuator for operating air control dampers in ventilation and air-conditioning systems for building services installations

- For air control dampers up to approx. 1 m<sup>2</sup>
- Torque 5 Nm
- Nominal voltage AC 100 ... 240 V
- · Control: Open-close or 3-point

echnical data			
Electrical data	Nominal voltage		AC 100 240 V, 50/60 Hz
	Nominal voltage range		AC 85 265 V
	Power consumption In		1.5 W @ nominal torque
		t rest	0.4 W
	F	or wire sizing	4 VA
	Connection		Cable 1 m, 3 x 0.75 mm <sup>2</sup>
Functional data	Torque (nominal torque	e)	Min. 5 Nm @ nominal voltage
	Direction of rotation		Reversible with switch 0 or 1
	Manual override		Gearing latch disengaged with pushbutton, self-resetting
	Angle of rotation		Max. 95°
	Running time Sound power level		by means of adjustable, mechanical end stops
			150 s
			Max. 35 dB (A)
	Position indication		Mechanical, pluggable
Safety	Protection class		II Totally insulated $\square$
	Degree of protection		IP54 in any mounting position
	EMC		CE according to 89/336/EEC
	Low voltage directive		CE according to 73/23/EEC
	Mode of operation		Type 1 (to EN 60730-1)
	Ambient temperature ra	ange	−30 +50°C
	Non-operating tempera	ature	−40 +80°C
	Ambient humidity range	е	95% r.H., non-condensating (EN 60730-1)
	Maintenance		Maintenance-free
Dimensions / Weight	Dimensions		See «Dimensions» on page 2
	Weight		Approx. 500 g

# Safety notes

- The damper actuator is not allowed to be used outside the specified field of application, especially not in aircraft or any other form of air transport.
- Caution: Power supply voltage!
- Assembly must be carried out by trained personnel. Any legal regulations or regulations issued by authorities must be observed during assembly.
- The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user.
- The cable must not be removed from the device.
- When calculating the required torque, the specifications supplied by the damper manufacturers (cross section, design, installation site), and the air flow conditions must be observed.
- The device contains electrical and electronic components and is not allowed to be disposed
  of as household refuse. All locally valid regulations and requirements must be observed.

#### **Product features**

Simple direct mounting Simple direct mounting on the damper spindle with a universal spindle clamp, supplied with

an anti-rotation strap to prevent the actuator from rotating.

Manual operation is possible with the self-resetting pushbutton (the gearing latch remains Manual override

disengaged as long as the pushbutton is pressed).

Adjustable angle of rotation Adjustable angle of rotation with mechanical end stops.

The actuator is overload-proof, requires no limit switches and automatically stops when the High functional reliability

end stop is reached.

## **Accessories**

	Description	Data sheet
Electrical accessories	Auxiliary switch SA	T2 - SA
	Feedback potentiometer PA	T2 - PA
Mechanical accessories	Shaft extension AV6-20	T2 - Z-LMA

#### **Electrical installation**

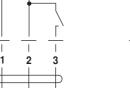

## Wiring diagrams

#### Note

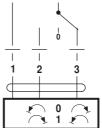

- Caution: Power supply voltage!
- Other actuators can be connected in parallel. Please note the performance data.

Open-close control

3-point control
